

Joseph Bisaccia

AI ENGINEERING & ENTERPRISE AI LEADER

ENTERPRISE AI GOVERNANCE | SECURITY | INFRASTRUCTURE

Gilbert, AZ | 480-205-1807 | jbisaccia9@gmail.com

getaiintegrations.com | github.com/jbisaccia-9 | linkedin.com/in/joseph-bisaccia-ai

PROFESSIONAL PROFILE

AI engineering leader connecting architecture, governance, adoption, and financial outcomes. Built production RAG and agentic systems and led a 72-seat healthcare deployment to 92% active use in 30 days, backed by conservative value measurement.

SELECTED IMPACT | 92% 30-DAY ADOPTION | 8,021 PROMPTS | \$52.7K EST. ANNUALIZED NET VALUE

CORE EXPERTISE

AI Strategy & Leadership: Enterprise AI roadmaps, executive stakeholders, governance, adoption, value measurement
Architecture & Engineering: Python, SQL, Java, RAG, agentic workflows, REST APIs, pytest, GitHub Actions, Azure Functions
Enterprise Platforms: Azure AI Foundry, Microsoft Graph, Blob Storage, Salesforce, Power BI, Logic Apps, least privilege

PROFESSIONAL EXPERIENCE

Lead AI Engineer | Behavior Frontiers Jul 2026 - Present

- Enterprise AI Program:** Led the technical rollout, governance, enablement, and measurement model for Microsoft Copilot across 72 HQ users; reached 66 active users (92%) and 8,021 prompts in 30 days through a daily Microsoft Graph pipeline.
- Agentic Workflow Delivery:** Deployed 5 agentic workflows, with 2 in pipeline, across marketing/sales growth, clinical scheduling, onboarding, and site operations.
- Clinical & Site Operations:** Built monday.com scheduling and new-hire training agents plus security-camera automation for manager coverage-hour compliance.
- ROI Governance:** Built a usage-tiered model estimating \$52,654 in annualized net value after license costs, applying a 50% realization factor and zero attributed executive benefit.
- Payer Intelligence:** Built a Transparency-in-Coverage pipeline validating 10 payer sources and returning comparable rates for 4, supporting \$24K in annual contract avoidance; insurer-requirement update automation in pipeline.
- Security Architecture:** Designed a least-privilege Salesforce identity blocking model access to out-of-scope intake fields and documented six privacy, security, and data-quality launch gates.

AI Engineer / Technical Project Manager | Capital Energy Sep 2025 - Jul 2026

- RAG Delivery:** Designed and shipped a retrieval-augmented generation assistant with agentic routing for inbound solar workflows, reducing response time 40%.
- Automation & Platform Migration:** Built a lead-reactivation voice agent with Voiceflow, Twilio, and ElevenLabs; led the Core 365 CRM migration and Make/Zapier automations that reduced manual work 40%.

AI Prompt Engineer & Model Trainer | Outlier | Handshake | Mercor Nov 2024 - Present

- Model Evaluation:** Evaluated frontier-model responses against client-defined rubrics and produced preference data for post-training workflows spanning factuality, instruction-following, and safety.

Instructional Designer & AP Computer Science Teacher | Gilbert & Higley Unified School Districts 2017 - 2025

SELECTED AI ENGINEERING PROJECTS

LLM Evaluation & Retrieval Gates | [kappa-gate](#) + [rag-gate](#) | Python, pytest, GitHub Actions; 30-case judge calibration gated at $\kappa \geq 0.70$ and agreement $\geq 85\%$, plus recall@3, MRR, and citation-grounding checks.

AI Value Measurement | [roi-gate](#) | CI-enforced adoption and ROI model that charges every seat, includes license costs, caps realization, rejects inflated assumptions, and publishes every intermediate.

CERTIFICATIONS & TRAINING

NVIDIA Deep Learning Institute: Building RAG Agents with LLMs	2026
IBM: RAG and Agentic AI Professional Certificate	2026
Databricks: Get Started with Generative AI	2026
Anthropic: Claude Code in Action	2026

EDUCATION

M.S., Artificial Intelligence Engineering Quantic School of Business and Technology	Expected 2027
M.Ed., Administrative Leadership Arizona State University	2022
B.A., Journalism & Mass Communication Arizona State University	2013
